

Make a Glittering Snow Globe

Make a beautiful **glittering globe** with a jam jar, water and glitter. If you want to be more adventurous, stick something to the inside of the lid which then becomes the base when you turn the jar upside down and the glitter falls on the object.

Finger Puppets & Stick Puppets

A lovely song for using **puppets** and if you sing our second verse (new song out soon) you can add in a sun and the moon.

"Twinkle twinkle little star, how I wonder what you are.

When the sun has gone to bed, and I rest my sleepy head

Then the moon begins to rise.

Lighting up the darkened skies."

CAMPING UNDER THE STARS

You could **camp outside** with your little one and watch the night sky as the stars start to come out. Or you could **make a camp in the sitting room**. If you have a blanket or cloth with small holes in, you could use this for the roof and when it gets dark hide underneath and see the wall light shining through the holes like twinkling stars.

Playing and Laughing Together

How about making a **star jar**. Choose three things to do over the next week to collect stars in a jar. To start off you can make the stars you are going to collect. Things to do could be to tidy away your toys every day, be kind to a sibling, wash your hands before eating, draw a thank you picture...

Make a Scratch Picture

Colour a piece of card with **different wax crayons** then colour the whole card in black wax crayon. This can then be scratched with a ★ to make a **twinkly star picture**

Singing with a Squirble/Scrunchie

A great song to introduce **using the squirble** and passing it round to the beat. Pass it round as you sing this song and lift it to the sky for 'above the world so high'.

Build on this teamwork by changing direction on repeating the verse or even half way through. You can also demonstrate **tempo** by singing and passing it **faster or slower**.

Try also to bounce to a **steady beat** as you sing the song.
